

Assalamu Alaykum Class 1,

Rules –

- Do this in your purple/blue exercise book.
- Use a pencil and a rubber.
- Make sure your work is nice and neat.
- Leave a gap between each individual letter.
- After you finish writing one line, leave one line as a gap.
- Take your time. The goal is to learn how to write properly, not fast!
- The more practice you have, the better you will be!
- Take breaks if you need too!
- Write from the right-hand side to the left-hand side.

This is an example of what your work should look like.

Everything is neatly done.

Any mistakes – use your rubber.

This student has left gaps between every letter.

This student has also left a line between each new letter.

We are not looking for perfectly shaped letters just yet!

Task -

After watching the video on the Arabic letters, could you please write out these letters into your book.

Write **each** letter out as many times as you can, on one line. **Each letter should have its OWN line.**

Remember to follow all the rules!

Get your parents to check your handwriting once you are done.
