Then, I would like you to read the text below and answer the following questions:

As you know, Allah sent prophets (Nabis) to guide human beings. This was because human beings have limited knowledge and are unable to guide themselves without Allah's help. All Prophets came with the same message, they would ask the people around them to obey and worship Allah alone - this is the message of 'La ilaha illallah'. The prophets also taught, trained, and guided these people about how to follow the way of Allah and of Islam. Now that you have read this, try to answer the following questions:

What did Allah send prophets to this world?

---

---

What is the message of 'La ilaha illallah'?

---

---

Can you give an example of a specific prophet and how he encouraged people to accept Islam?

---

---

Now that you have done this, try to recall the steps of Tayammum to fill out these boxes. If you are stuck, use your exercise books or watch this video to help jog your memory.
